It is not the responsibility of the appointed referee to check the eligibility of players listed on the team sheet.

c) Failure to produce and hand to the referee a correctly completed team/result sheet will result in the team, in default, being recorded as having conceded the match – the referee will record this outcome on the opposition team sheet and sign it – the opposition will send the team/result sheet as described below.

d) After the match, the referee will return the team sheet to the manager/coach of each team having duly signed the team sheet and completed the match score.

j) Passive scrummages may be initiated by the referee, at any time during the match, in the event of safety concerns where one team is so dominant and the welfare of players in the opposition team is highlighted - this will not result in forfeiting the match - the match result at full time will stand. If, during the course of the match, the referee initiates “uncontested scrums” on the grounds of safety, then the referee should note the time when the uncontested scrums commenced.

k) Front row players who have left the field due to injury to the head, neck, shoulder or back cannot return to the field in another position – clubs found not to have followed this requirement may be removed from the LRU County Age Grade Cup/Plate Competition.
